

## **INTUITIVE CARD LAYOUTS (SPREADS)**

Choose a spread below that calls to you. Pull a card for each question in the spread you chose. Lay the cards in a row and read them from left to right. Read the message on the card and see how the spread question relates to it. Write about it in your journal, so you can refer to it later. If you aren't sure about an answer, write about the feelings that come up as you read the card. Put the card in view and come back to it later for more insights.
